Thank you for another fantastic year! We appreciate all the members, guests, and sponsors that support our organization. We had a great lineup of speakers all year, including local media, science experts, developers, local businesses, and county and state agencies. Last year, we raised over $7,500 for scholarships and awarded two local students $2,000 scholarships.

While 2016 was great, we are looking forward to 2017 and making the Nevada Section even better. This year, we will be awarding THREE local college students with $2,000 scholarships for the Fall 2017 semester. If you or someone you know is interested, please see page 2 for more information on how to apply. The 3rd Annual Dave Breault Memorial Golf Tournament will again be held in the fall, and we are going to make it bigger than ever. In addition, we are working on coordinating at least one member field trip this year, so watch your inboxes for more information.

As always, we are here for you, so please provide us with comments/recommendations for future speakers or field trips. Thank you for your continued support.

### 2016 Performance Membership Nominee

The Nevada Section of A&WMA has been nominated by National A&WMA for outstanding performance in membership services in 2016.

This nomination comes to us due to the hard work and dedication of our previous Membership Director, Chris Abraham, and the continued effort of his successor, Eric Wang.

I believe our membership success is attributed to the pride and dedication of our local industry’s professionals, in having an organization where government agencies, vendors, and consultants can get together, disregarding industry competition, for the sake of educational and professional development, and creating friendships. — Chris Abraham
